A representative from Galaxy Cable discussed the cost involved in putting cable on Oak Street. For the four homes it would be a cost of 4,181.92 or 1,045.48 per house. Galaxy, at this time feels that this would not be beneficial to them, but would install the cable if the houses would agree to pay the 1,045.48 each. Mayor Nelson asked them to consider paying half and the customers on Oak Street paying half which would be 2,091.46 for Galaxy and 522.87 for each customer. The representative said he would take this offer back to Galaxy and let us know on their decision.

Scotty Kennedy reported on a meeting that he had attended concerning trees and the benefits of mulching. He asked the Mayor and Council to place mulch around several trees in the city in order to conserve moisture. He also discussed planting new trees in the Fall to replace some that have died. The Mayor said that would start mulching as soon as possible, but we needed to wait about planting any new trees until the drought is over.
